

would be provided for the conservation area. The conservation area would be used for the recovery and long-term conservation of the Delhi Sands flower-loving fly. This alternative would result in construction within approximately 60 acres of potential Delhi Sands flower-loving fly habitat. Impacts to the Delhi Sands flower-loving fly would be greater than the proposed project and there would be less benefit to the species.

This notice is provided pursuant to section 10(a) of the Endangered Species Act and Service regulations for implementing the National Environmental Policy Act of 1969 (40 CFR 1506.6). The Service will evaluate the permit applications, the Habitat Conservation Plan, Environmental Assessment, the associated documents and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Endangered Species Act. If we determine that the requirements are met, we will issue permits for the incidental take of the Delhi Sands flower-loving fly. A final decision on permit issuance will be made no sooner than 30 days from the date of this notice.
